

## Bushfire Assessment Report

### Planned Works and Project Stage

When a Development Application is submitted to Council, the proposed development requires the submission of a Bushfire Assessment Report to determine the Bushfire Attack Level (BAL) for the proposed building.

Survival Solutions can prepare a bushfire report to determine the Bushfire Attack Level (BAL) requirements in accordance with the Design Guide for Planning for Bushfire Protection, Building Codes of Australia and Australian Standards AS3959-2009 'Construction of Buildings in Bushfire-Prone Areas'.

### Requirements Prior to Commencement of Works

- A copy of the proposed architectural plans including a site plan, floor plans and elevations (emailed to in electronic PDF format, faxed or posted)
- Signed agreement for Survival Solutions to undertake the above works returned
- The report document will be emailed, faxed or posted to you upon receipt of payment.

### Costs

**\$330.00 incl GST (Single Dwelling)**

**\$550.00 incl GST (Dual Occupancy)**

**\$880.00 incl GST (Rural Residential)**
